

AccuShoot hFX – Home Fire Experience

Bring Your Projector. Bring Your Laser. Bring AccuShoot Home.

You already have the projector.
You already have the laser device.
We bring the AccuShoot technology.

Turn a spare room, garage, home theater, office, or classroom into a measurable dry-fire training environment.

\$1,499

INTRODUCTORY PRICE

CONNECT. CALIBRATE. TRAIN.

Connect HFX to an HDMI-compatible projector, project onto a white wall or screen, use a compatible 780 nm invisible infrared laser training device, and start training.

HFX automatically detects and scores your shots, records performance, and delivers immediate feedback.
